

Black Warrior Council – Council Shoulder Patch

S7 Variations

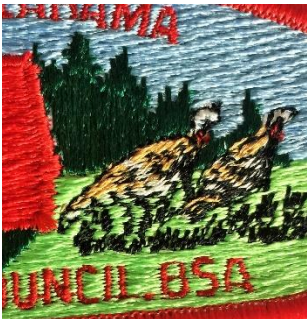

At the Aracoma Lodge Fall Fellowship meeting on November 3, 2018, Alan Snyder pointed out the variations of the CSP. He, Jon Hall and I studied the patches and agreed. While there are no design changes, there are distinct variations in the patches.

S7a – Clear Plastic Back, this would have been the first issue of the patch, before National required the “BSA Scout Stuff” mark on the back of all patches

S7b – This patch looks just like a S7a but has the “BSA Scout Stuff” Mark on the back.

S7c – The difference in the S7b and the S7c is the background of the patch, the S7b have a traditional solid background, while the S7c has a CD background. See close-ups below for detail:

S7b Background Detail

S7c Background Detail

S7 Variations

Variation a – Patch plain plastic back (no text):

Variation b – Patch “Scout Stuff” printed plastic back:

Variation c – Patch is a machine embroidered vs the fully embroidered of a and b:

S7c

vs

S7b
