
TROOP 10

**LOG
BOOK**

BOY SCOUTS of AMERICA

on February 26 Troop 10 went camping a few miles out of Centerville. During the campout the patrol, one at a time explored a cave which was near the campsite.

A few minutes before initiation one of the new scouts Doug Mayfield broke one of his arms. On the second day of the campout it rained. Because of this we (the members of the troop) had to pull the Bus. There are several scouts that will testify that this was extremely painful. After approximately 1 hour, several bruised legs, and a broken rope (which we broke trying to pull the bus) the bus was free, and the troop got home on Friday Afternoon at nearly 3:00.

March -

March 1, 1966

The troop met outside the scouthouse and Mr. Smith informed us about the forthcoming trip to Northern Alabama. After this we entered the scouthouse and Mr. Smith showed us the correct way to fold the tent.

Oct. 1-2. Weekend

We had a Green Bar Campout at Hurricane Creek. which is owned by the paper mill. We left the scout house at 7:00 o'clock. We arrived there at 8:00 to 8:30. We learned to work as a unit and things ran quite smoothly. Sunday morning we explored some caves and went swimming. The Scribner + Liberman gave the church service. In general we had a good time.
Forrest Scribner

Tuesday Oct. 4

We had a Green Bar Meeting and we made the plans for the first 4 months of our new year. We decided to have four skits or demonstrations a month.

Oct. 11, 1966 Troop 10 Log

Tonight we had a general scout meeting. We had a firebudding demonstration by Ricky Richardson and his patrol. It was a fair success. We discussed our profits from the October 8th Clemson-Alabama in which we made well over 300 dollars. We also made plans for a campout the weekend of the 22-23 even though our schedule calls for it on weekend of the 29-30. We also discussed our cheer drive. Lovell Scrube

Oct. 8 Ball Game
Clemson Alabama

On Oct. 8 the Scout Troop met at the Scout House with several of the fathers coming along to supervise and handle the money at the ball game. Each father was assigned three boys who were to report to him at regular intervals. At first we sold cushions, later peanuts and popcorn.

It was a big success and we made over 300 hundred dollars.

Lovell Scrube

Oct. 18, 1966 Troop Ten Log.

We had a first aid by the Hawk Patrol on such subjects as artificial respiration, bleeding, fainting and others. We discussed the ball game and agreed that you must make two out of the three games to go on the upcoming trip. We also mentioned the charter drive will be coming to a end in not so many weeks.

For recreation we played strongback.

We saw a movie about the way to get rid of ~~of~~. And planned for a outing on Saturday to clean up at Camp Horne. Also planned for Campree the 21, 22, 23 of April, and we hope to ~~we~~ ^{we}.)

APRIL 11, 190067

We planned to go to Camp Horne to clean up, also to rope off our camp ~~of~~ site and maybe swim).

SATURDAY, APRIL 15, 190067

The Troop went to Camp Horne to pick up trash. After a morning of work we ate lunch, most people went swimming. Jerry Smith ran around nude.

MARCH 28, 190067

We had elections for P.L., S.P.L.,

That night we slept in a bean field across from the barn. At midnight there was a downpour and high winds.

By the morning, 10 tents were either knocked down or flooded. The section of the beanfield where some 6 or 7 tents had been was completely flooded. The barn became a refuge camp. Scott Greason woke up sleeping on an air mattress floating on 4 inches of water. Jim Andrews woke up under a collapsed tent and advised partner Don West of their situation. Don replied (talking in his sleep) that "It doesn't matter, we'll stay dry under the tent." Salvage crews were sent out every minute to get gear from "disaster areas". Parts of a patrol mess kit were spotted 'adrift'. We had a big pile of personal gear to be claimed.

We did have some fun, though. We went deer trapping. In one trap we caught two red hounds. We sped through muddy roads, rocking back and forth in the big mud puddles. One truck nearly lost a tire! We also caught a few deer.

We went to see the largest tree in Alabama. It took 6 hrs to reach around it.

We had a campfire at 8:00, with initiations and a couple of skits.

We had some card games going on.

We went during the night to see deer in a pick-up.

We had a devotional Sunday morning. Two awards were

handed out. A trophy in the shape of a tent peg for the best father on the campout, Mr. _____ was handed out; a tractor wheel about a foot in diameter was given to the tractor driver, Mr. _____

"for a tractor he could handle."

Yes We reached Tuscaloosa before noon and dropped people off at their homes, and some hung up the tents to dry.

To those who didn't go: Believe me, you don't know what you missed

An article from the Montgomery Advertiser, written by my father. Concerns this outing. It's on the campout and on the next page. Read it!

Pensacola' Elgin Trip Mar. 14-18

On Wednesday 30 boys and 3 adults left for Elgin. We arrived late in the afternoon. We ate at the Air Force Mess hall. We stayed at the Scout Camp there on the base. The next day we toured the d-m-place. We saw the Climate Ranger and other interesting things. The next day we went to Pensacola Naval Base. We ate at the base and saw a Survival type museum. We also went in the Aviation Museum. We all enjoyed the great, wonderful trip.

OLD BOUNTY

THIS HAPPENED JUNE 11, 1967

The Way To Travel

By TOM JESTER
News Staff Writer

Destination: Moundville.

For someone in Tuscaloosa a trip to Moundville wouldn't necessarily be an adventuresome journey — that is, unless you were going by canoe down the Warrior River.

And that's exactly what a group of Tuscaloosans are doing this weekend.

Led by scoutmaster Charles Smith, 18 boys and four adults of Boy Scout Troop 10, sponsored by the Forest Lake Baptist Church, shoved off Friday afternoon from the vicinity of the downtown bridge for the first leg of the two-day trip.

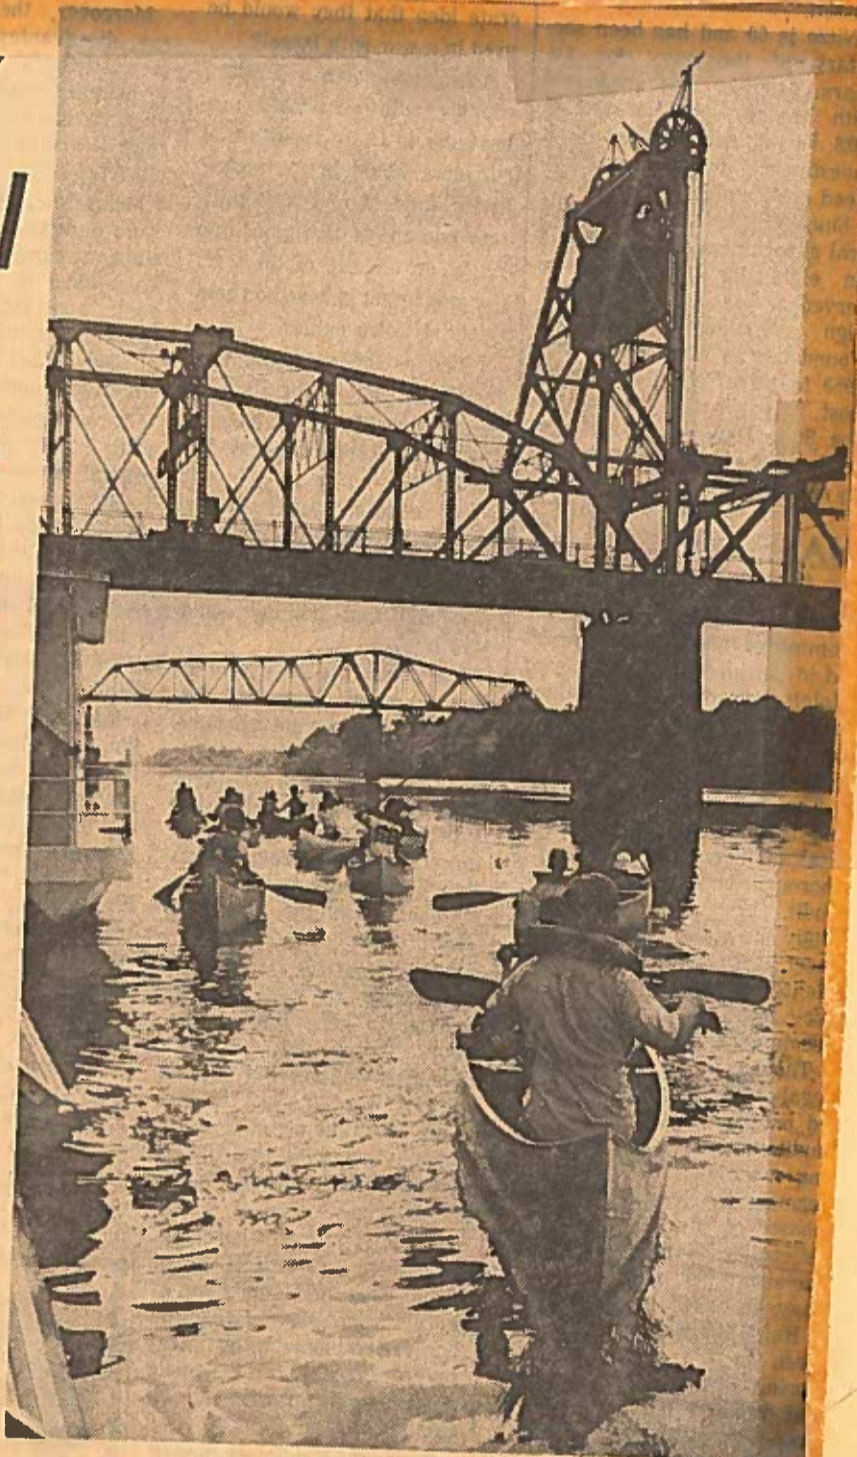

The trip has been planned for many weeks in advance with preparations including extensive instruction in canoe handling and water safety with two practice runs.

In addition, the boys have received pointers from the Corps of Engineers on operation of the river's locks and on navigation of hazardous points in the river. W. R. Richardson, Reservoir Ranger from Demopolis, has been following the troop in a small outboard for an added measure of safety.

The Scouts spent Friday and Saturday nights on the river bank, cooking their own food and using sheets of polyethylene for shelter. The canoes are owned by the Black Warrior Council and are available to all Scout troops in the council area.

The group is slated to arrive sometime this morning at Moundville State Park boat landing to be met by parents and a special Scout bus for transportation back to Tuscaloosa—the easy way.

Scoutmaster Smith used the occasion to get in a recruiting plug. He said any boy 11 or older can come to the Forest Lake church any Tuesday at 7:30 p.m. and join the troop.

Brough's Bluff

(This is now part of Lake Tuscaloosa. It is owned by Mr. Brough of our troop.)

We left Friday and got there about 15 minutes by bus. We had sack lunches (or should I say supper?) that night Saturday we went on a five mile hike for Second Class. Ben Campbell & Gary Sperrillo tent burned down (Plabboy cards were left in the ashes)! We went back Sunday.

19

Vicksburg, Miss.

We spent a day getting over there and stayed at the military base at Vicksburg. The Scoutmasters, incidentally, claimed all heated rooms. Some Loyal, Helptel etc Troop Ten. sweat broke a window. The following day we hiked 14 mile on the Vicksburg Park Trail. Stayed the night at the base again, went back home next day.

Westervelt Game Preserve

It took us two hours to get there Friday. Saturday we rode about the preserve in a trailer with the workers, checking deer traps. Two times two downs were found in the same trap. One deer got loose for a moment and one of the hooves cut Mr. Gibbon's hand to the bone. He was taken to a doctor, and returned later with stitches and a bandage around the hand. We tagged the deer. We had a bon fire, went on a night ride to look for deer, and burned tires that night. The next day we left.

These are brief accounts of what Troop 10 did in one of the times the Log wasn't working. (When Lazy Roy Bailey was scribe!)

July, 1969

Apollo trip

We spent 2 day riding the bus (stayed at a military bases for nights. When we reached Cape Kennedy it was . The next morning we saw Apollo 11 blast-off. Most of us got models and when we got back we bought 2 different kinds of patches. While at Cape Kennedy we got rocket models. It took us two days to get back home

Patches

Six Flags Over Georgia

We reached Six Flags before lunch. We rode on rides (it rained half the time) and stayed the night on the base. Left next day to go back home

Fall Camporee

Sept. 1969

This was held at Camp Home. It rained half the time (wouldn't you know). Some accidentally threw a roll of plastic in the creek, where discovered the next day. Saturday all the troops met at the field to pass out things. Went home Sunday

Six Mile Creek
March 13-15, 1970

This was the place where, on another campout there Feb. 26, 1966, a boy broke his arm. We hiked in $\frac{1}{2}$ miles, with our packs. We pitched camp about 4:30. Some of us got this chore done easy and quicky, but others didn't. Saturday the troop had breakfast, there was an inspection of pack areas, and the troop explored a cave. About 3:00 that afternoon we went to the old Civil War forge. Many people, including Louis Montgomery Johnny York and others found old rocks or spikes or something. There were some great rocks, obsidian, amber, and other types of glass. Coming back we got coffee and snacks, and gathered some wood for the bon fire. We had initiation sang songs, and just talked. We left Sunday at 11:30 in the morning.

Mike Land
Alternate Sec'd

April 21, 1978

We had a brief assembly. Then we were dismissed to Patrol corners. (Recently we had a switch, in which the Quail Patrol exchanged Mark Gibbons for Gayland Daryof the Flaming Arrow Patrol). After Patrol corners the Patrol leaders had a meeting with the adults and Dickpin, the Scout House, so, the others of the troop played British Bulldog.

Campout?
Bruffs Bluff

We are to hike in about three miles Saturday, the 25 of April. We will not spend the night, but spend our time on pioneering projects, and perhaps swimming. Bruffs Bluff is on the banks of North River, which is part of the Holt Dam project, so Bruffs Bluff would be on the shore of a lake. We won't canoe much, since we'll just be spending the day there.

Mike Land
Alternate Leader

Broughs Bluff
April 25, 1970

We left about 7:30, when some rain stopped, Gray, Marcell and I was told to be there by 8:00, so they had left when Gray and I got there, and we had to go with Gray's parents to the craft. We did some pioneering projects, went fishing, and played around. Begganlee Fireash got hit in the back of the head with a rock, and it bled some, Lewis Montgomery placed a headline on his head.

We painted some fire buckets, and the Troop supplied us with wieners, ketchup, mustard, pickles, onions, pickles and cooking for supper, and 3 ads. We had a paper for about 1 hour that night. We got home about 8:00.

May 30, 1970

Panther ~~Patrol~~ Patrol painted their patrol corner blue. They didn't have time to paint the ceiling white. We got a workbench for the patrol and light switch covers, too. There were many comments about it (not very complimentary) at the next meeting.

June 2, 1970

Greenlaw let us know about the Appalachian Trail. It will be in the last week of August. We will enter the trail in Georgia, hike there two days and take the bus to Myrtle Beach, S.C. We got patches for summer camp. We considered letting some take the fifty mile hike with adults and the ones going to Myrtle Beach and picking them up on return trip.

Summer Camp Patch
Comments - a little better
than the complete
patch

June 9, 1970

We had a Court of Honor, saw some slides of the past ages of Troop 10. We got summer camp medical forms and the parents found out we had barely enough money. R. L. Kennel, Brunslee Fireash and Roy Bailey showed up slot in the slides. The Panther Patrol is the only one that have painted. We had a short meeting after Court of Honor.

June 16, 1970 A.D.

We made plans concerning Summer Camp. We'll leave 11:30 P.M. Sunday, June 21. We'll leave Saturday from camp. We (Troop 10) have the New campsite on a hillside. We'll have tents on wooden platforms.

Sunday

We got to camp about 2:30 or 3:00. We had the same campsite as last year, only there were some new tents. We got a tour of the camp. Judd Gustin got creamed with shaving cream and mud for getting into the staff area. We had a campfire and a preacher visited.

Monday

The staff invented the "goat game". To be the goat you must lean up next to a waiter. He has this steel cup round his neck with "GOAT" on it. The goat does as follows:

1. ONE GOAT can only go ~~any~~ ^{any} guy one time.
 1. Goats change from meal to meal some guys played rock into the night.
- Bailey quit scide Mike

Conne and Bailey got in the lake by the pier holding for the shore, etc.

Tuesday

Brounlee (Senior Patrol Leader) was pushed into the staff area. He didn't realize he was in the Staff Area until the Staff pulled him from behind. He reminded me of a chocolate pie with all that shaving cream all over his body, mud, and a three week old moldy blueberry pie on one side of his face.

We had several games "Staff versus Scoutmasters lost" after supper. I had a great campfire and started at 11:30. Inspection score 99

Wednesday

Thunder storms appeared. The mile swim was accomplished. Expectation score, 69! Buddy Lake and Jeff George got in had troubles with the staff for waiting on tents with insect repellents! Also in for it for the same reason, Gary Sherwill and Ernie Luce.

Thursday

A raid on the staff area is being done. It should be executed

Friday. We had a dinner of the dress
top out ceremony. This year would walk

We went to the north woods.
P.S. (Leave now, come, don't show, Paper, Bread, Milk, Jam, etc.)

June 30, 1955

We had board of review
for our unit & some Scouts
cleaned the bus.

July 14

We found 10 projects to do
around the Scout house for points.
Among them - cleaning the bus inside and out,
repair Totem pole, trim tree, mow
lawn around church and Scout house.

July 21

We planned for Camp Brown
campout.

Campout

Hike

We hiked in with packs on from the Scouthouse to Camp Home, somewhere around ten miles. Johnny York didn't make it, Jeff Crawford dropped his canteen off a bridge, Larry Connell got sick on the hike "Cancelled out"

Camp

We camped by the canoe racks making our tents out of plastic. Most stayed up till two o'clock. One tent got a Playboy magazine and notes thrown at it. Most of Saturday was taken up swimming and greasing a watermelon. We made a dam in the creek between the two lakes and put watermelons in the dam water to keep them cool. (Three campout families of scouts were invited, and about six showed up) We had Court of Honor Saturday.

Hike

We hiked back to the Scout Hall Sunday. Some dropped off at their homes on the route

Got up early again. We drove through Old Charleston. We took a ferry to Fort Sumter. A lot of it was in ruins but the major parts had been restored, including artillery and on the whole it was very interesting. We had lunch at Hardee's. We then went to the beach, and saw the biggest light house in the Western Hemisphere. The waves were big and we rented rafts. We then ate supper, toured a conventional submarine (its name was the Barracuda). After that we drove to Ft. Jackson (S.C.) to sleep. Troop 10 Scouts Return From Appalachian

Twenty-four members of Boy Scout Troop 10 returned recently from a nine-day trip through North Georgia and western South Carolina. The highlight of the trip was a 50-mile hike of the Appalachian Trail by 10 of the scouts and three adults.

The troop spent the first night at the U.S. Army Ranger Camp located 12 miles north of Dahlonega, Ga., once a booming gold mining area.

The following morning 24 scouts and six adults began hiking the trail. Two days later they arrived at Lake Winfield Scott for swimming and laundry duties.

THE NEXT day they split into two groups. Fourteen scouts and three adults boarded the troop bus, affectionately known as "The No Noc," and went to Myrtle Beach, S. C., and other points of interest along the Atlantic coast.

The other group continued on the trail for the next three days,

hiking a total of 35 miles. The two groups then rendezvoused at the Ranger camp near Dahlonega for the return to Tuscaloosa.

The only problem encountered along the trail was a yellow jacket nest that resulted in several boys getting stung.

AN INTERESTING "extra" received by the Scouts was a demonstration by Rangers of Hand-to-hand combat techniques. The Rangers also

demonstrated how to scale cliffs and transport equipment across ravines. Finally, the Scouts were shown a display of captured Viet Cong weapons and U.S. weapons.

Other trips made by Troop 10 earlier this year were to Vicksburg and Six Flags Over Georgia. The Scouts earned most of the money for the trips themselves.

Charles Smith is scoutmaster and the troop is sponsored by the Forest Lake Baptist Church.

October 2, 3, & 4, 1970

We left for Chehaw mountain 4:30 Friday. We arrived after dark at a campsite (near a small lake and a large old-fashioned water pump) in Talladega National Forest. Surprisingly enough, since it was dark with none of the 'older boys', our Hopygully rose up quickly and efficiently. The next day the bus took us to a small station about 1 mile below the top of the mountain. We had originally figured on hiking Odum Trail, a 10-mile long trail, but we changed it. We hiked the mile up to the top, where we enjoyed the mountain view (Alabama's highest point, 2,468 ft. above sea level) from a stone tower, and bought souvenirs and snacks at a small shop there. Then we hiked back down and began hiking the trail. At 10:20 we hit yellowjackets (Dennis Latham got stung 7 times, 1 time in the eye lid) and had to make a small detour. Also, before lunch, we stopped to investigate a wrecked plane, scattered over a length of about 100 feet. Soon after we hit the halfway point and had Trail Lunches, which drained most of our canteens. Sometime after lunch we ran across a tree split by lightning. We went the east couple of miles with little water. We were somewhat tired afterwards. The trail had been rough, going over great rocks (the trail rocky the whole way). However, our energies were renewed enough to go to the ranger station and watch Alabama & Mississippi play on a portable T.V. set up outside a building in cool air and crisp winds. We were half asleep when the bus returned us to the campsite. Sunday morning, on the way home, we visited and went on a guided tour of the famous, rustic, fascinating Dymalga cayo cave. We stopped at Centerville for lunch, getting back at 4:00. Mary got the fire patch and \$2.50 medal

Greggy Bruff, who had started a knife and axe demonstration October 6, finished it by making each do what he had shown. The patrols were organized, and we prepared for the upcoming advancement camporee. Don West, who had sold the most tickets (90), got a gift for it. It started off with a joke. The gift was in a large box, and it was half full with newspapers. Finally Don got to the bottom of it, as he found a brand new, fancy transistor radio under the papers.

Advancement Camporee

Oct. 23-25, 1970

We went on an advancement camporee at Camp Home. Among some of the minor tragedies were a rock that was thrown (accidentally) into a new Voyager which Jeff Wade was sleeping in (roof) producing a nice size hole (unfortunately it rained that night), several 'stolen' items such as candy, a few eggs, a few doughnuts and Jeff Wade's Chehaw Mountain Medal, and Jimmy Ruscenogle got hit in the forehead (accidentally) with an axe. We passed off requirements in Tenderfoot, Second Class and First Class and merit badges. Saturday. We had some raid trouble Saturday night. There was a campfire, for which some troops performed skits. We left 1:00 P.M. Sunday.

Lit by a flare shot from the woods, it reached enormous heights. We had skits by patrols and other people, sang songs and told jokes. We also had the cave initiation too. Sunday we went into the big cave and had devotional inside it. Gayland Day stepped on a rat. Soon after we started for home.

Tony went with us. We had a high father attendance, too. We arrived as a miniature caravan (3 campers, two buses, 2 pick-ups, and a few cars) in a downpour. We sat in the cars an hour till they decided to sleep in the barn. Half of us took one road, half took the other. No-Knock got stuck in the road miles away from the barn; the York's trailer got stuck a mile behind it. Then a Preserve tractor, coming to rescue the bus and trailer, went completely off the road into a shallow creek. Two hours later a pick-up came from the barn and delivered the buses passengers to the barn, cold, wet and muddy.

The next morning most of the troop recalled that their breakfast was in the bus and that the bus was 2 or 3 miles away. One patrol ate breakfast at 10:00. The bus and the trailer and the tractor were pulled out at about 9:00 by a pick-up truck, which didn't get stuck.

March 16 - Planned for a Huntsville trip

~~Hi~~

Huntsville Trip 19-21

We left Friday at 12 from the Scout house, arriving at the Army base in Huntsville at 4. We had supper at the base (surprise: the food there is great) and later, at 8:30 p.m., we saw a war movie. Late night found the Army base moved into a war zone as a colossal pillow fight erupted in the barracks.

The next morning, after breakfast, we went to the Alabama Space and Rocket Center in Huntsville

The Space Center has the world largest collection of missiles, rockets and space vehicles. A full size Saturn 5 is exhibited. The 35-acre complex is open every day.

Saturn

About 7 we had supper at a hamburger stand in the city and later returned to the base. A few people went to see at the base. We had a unorganized pillow fighting war, and races. Later one of the Commander-in-Chiefs, Russel Rizer returned and tried to organize his 'army' against the enemy in the "tournament of the pillow". But the adults broke up the war. Later on, the next morning, other "hostile gestures" were made pillow fighting.

Sunday, morning we had a breakfast, packed, had a devotional and left. On the way back to Tuscaloosa we visited the very artistic and beautiful Ave Maria Grotto. We arrived at the Scouthouse within a couple of minutes of 4 P.M., our planned time of arrival. Also, we were 2 minutes early, not late, (for once)!

General Record

After the previously mentioned trip we had a Quenbar meeting ^(Mar 23) which is marked as our kickoff for nationwide Project G. O. A. R. On March 27 the Quenbar cleaned up a lot of 15th St, leaving

a sign behind saying the area had been
cleaned up by S. 10.

We then made our plans for
Expo 11.

April 17

Expo

Our project was litter control.

We stationed S. 10 litter marshals
with citations and hats to arrest
any boy who littered. If they were carried
to the booth to serve a 2 minute
punishment.

We had a divider between the
back and front of the booth. 3 litter
monitors were painted on this divider,
round holes where the faces should be
seen. The 'arrest' would put his head
in the hole for two minutes.

Also in the booth were a small
'closet' which bore the phrase "Come in
and see the real live litter bug"

You would walk in and see your own
reflection in a full length mirror:
thus "the real, live litter bug."

- A litter bug drawing contest

We had a 'litter monster' cut
front about 10 feet long made
out of cardboard boxes which somewhat
resembled a crocodile. You could put

UFO's, missing boys and such at Foscue Park

Demopolis' park facilities are becoming a well known feature of the town.

Recently, Boy Scout Troop 10 of Tuscaloosa, sponsored by Forest Hills Baptist Church, set up camp for the weekend at

Indian, (a Scout) came out to pray to the south, east, west and as he prayed to the God of the South, a ball of fire came down from the sky (a flare in disguise) to start the fire. Afterwards each patrol did a skit,

wild Indians but the nearer to the UFO they got, the quieter they became. (The UFO just happened to be made out of plates from the Demopolis' Times' store room). After all the excitement died down, everybody that was visiting went home to stop and think what a fine place Demopolis must be, to have people come from over the country to camp in our fast-becoming famous and widely known Foscue Park

Foscue Park. Scoutmaster for this group is Jim Gibbons. There were 32 boys, 20 adults and 3 young ladies (they wanted to be mentioned).

I met this group quite by accident-which was good luck for me, for I met some of the nicest people in this part of the country. While helping with our church bus party, I spotted the tents of the Scouts and decided to come back to find out which Scout group was camping that particular week-end.

Upon returning, I found the group was from Tuscaloosa and one of the leaders was Max Wilson, brother to Demopolis' water patrolman Bill Wilson.

After a few pictures, we (my children and myself) were invited to stay for the bonfire and to have supper. It is not often these days you are offered a free meal, and the appeal of my sons won me over to stay and watch the actions of the night to come.

These Scouts really knew their business. While listening to an older Scout telling some younger ones to hurry up--their time for fire building was running out--the hurrieder they went the behinder they got. I thought, "They are getting some good training for the years to come, even if they didn't quite make their deadline for their fire building."

After supper and cleanup time, all the boys gathered around the bonfire and

which left nothing to the imagination of the viewers. These kids could do a Broadway production and leave nothing for the asking.

The real excitement started when Patrolman Wilson got a call over his car radio about a UFO being seen in the Selma district and the show REALLY got started when a few minutes later another came in saying that the UFO had been sighted near Prairieville a little closer to Demopolis and still moving. (As luck would have it, an airplane happened to go over about that time with blinking lights and really set the kids going).

After the Scoutmaster's benediction, it was discovered that one of the older boys that had been sent for wood had not returned. Everyone set out in search for Johnny. (He was not really lost.) As the group neared the river, flashing lights, flares, and wierd sounds began, and would you believe an actual UFO appeared out of the woods?! (The only thing was that the UFO was being run by a couple of Demopolis Scouts--Charlie Roberts and Dennis Miles (why these two creatures were not mistaken for Martians is a total wonder.)

The Scoutmaster sent the new Boy Scouts across the pipe to look for the missing boy and when they didn't return, everybody went looking. They started

DEMOPOLIS' FOSCUE PARK has become a favorite camping site for many groups. The weekend of Nov. 10 Boy Scout Troop 10 of Tuscaloosa sponsored by Forest Hills Baptist Church were camping here. Shown are some of the Scouts as they prepared their supper for the night.

Oct 20-22, 1972

Friday: We left the scout house at 4:30. We got there about 6:15. We brought our own sack supper. Most people went to bed real late that night.

Saturday: We had breakfast & went to the Coast Guard Station about 9:30. The man Marsh & all he said was "Due to the fact..." He told us about the Coast Guard; showed us buoys; & showed us a boat. The we visited the Army Corps of Engineers office. We saw a film on boat safety & navigational markers. We ate hot dogs for lunch. About 2:00 we went to the Demopolis Lock & Dam where we saw ~~a~~ a boat go through. Before we left we listened to Alabama come from behind to beat Tennessee. We had hot dinners for supper & played Capture the flag later.

Sunday: We ate cereal ^{ugh!} for breakfast. Later we went on a hike down (the long way) to the Lock & Dam that paid Ronnie Morely \$2 for skinny dipping in the river. Then we cleaned up & left about 1:00.

Cheaha Campout Bad Pen!

Friday - ~~Saturday~~ We left about 4:30 & got here around

8:45 and set up camp. Then the TTTT (Tuscaloosa First Troop of Troop #10) went to war & nobody slept that night (no tent).^{is it} About ~~10~~ 10 in the

morning ~~when~~ we went to hike the Odum Trail.

The miles were ~~to~~ about as bad as a long-tailed cat in a room of rocking chairs! We had seen where some airplanes had crashed. We ate about 6 miles out. We got through at about 4:00. Then we went to camp & ate chili. We played capture the flag after supper. And somebody slept!?

Sunday: After a breakfast of sugar frosted flaks

& juice we had a short Sunday service. Then we went to the top of Cheaha mountain & ate lunch & looked at an observatory & a gift shop. We left about 4:00 & got home about 7:30.

O'PEAR
JAN 12-14

Left Scout Hut about 4:30 + arrived at O'pear later. We slept in the old mess hall & a few slept outside. There was a Fats stove that we heated & used. Most people stayed up all night. Few slept.

No girls this time! 4TH IN SERIES

Saturday: Got up & ate breakfast. Later we went on a ECC (Crazy Compass Course) when people nearly died. We ate lunch about 4:00. Gooped around after that. Ate supper & almost lost our jobs when 4 compasses were missing. Then people gooped around & went to bed.

Sunday: Ate breakfast, cleaned up & left at 11. Got back at 1.

Westervelt Feb

A NIGHTMARE! We left at 4:00 & expected it to rain as usual. But it didn't! Scoutmasters were speechless. Scout who had been there said it was impossible. Well anyway we caught 4 deer & a dead beaver. One of the tires on the trailer went flat & we went on the bus. Troop 27 camped with us (they got rained too!) Some archeologists from the Ad of Q came & showed us some of their findings. Then we went to a place where Indians once lived. Somebody in Troop 27 found some Indian beads (rabbit pellets). Since it didn't rain the Curse Of Westervelt (COW) had been broken! No girls except 2 scientist! 5TH IN SERIES

Chattanooga Trip

Mar 10-12

Left Friday at 8:00^{AM} got there at 4:00^{PM}

We stayed in a naval reserve which was directly by the Tennessee River which seemed to be rising at a rate of 5 ft per hour. It was declared a natural disaster area.

Saturday: ate breakfast. Went sightseeing -

1. Ruby Falls - Flooded
2. Cravens House - Okay
3. Incline - Up + Down
4. Point Park - Brrrr.
5. Rock City - Please don't touch the display
6. Confederama - Great

It was all great except which we didn't

see.

The Panama City, trip put everybody into high spirits. Most of the time ~~got~~ ~~been~~ everybody just sat around and relaxed, (the adults that is!). All the boys were on the beach most all the time. The trip ~~was~~ was a lot of fun, (for those who were loaded with money it was even more fun!) Every except a few found a good pastime in putt putt golf. ~~Some~~ ~~place~~ McDonald's was a favorite eating place.

Before the trip everybody was working their heads off trying to get enough points to go. Most of the points that weren't gained at the last minute were gained at summer camp. The more points you had the less money you had to pay for the trip.

The beach was cluttered, and if you had the money you could gain a friend, if you know what I mean. We left here ^{Saturday} (Carruthers) at 9:00 ^{am} and arrived there ^(St. Andrews last) at 4:00 pm. All in all the trip was pretty good. Up to now, were in the process of cleaning out the bus.

April 5-7

Just like the last 3 camps this one was good because JEFF "Ripoff" Free was not there. In spite of all this we literally froze our butts off, well at least some of us. Most of the leaders brought their luxuries & their wives with them. There was the only leader that really camped. The other leaders got their Ricks watching Joe Namath get roasted on Dean Martin, while the scout's older one, slipped off to the girl scout camp, and thoroughly satisfied themselves!!! The morning we started the hike I thought that we would never stop walking. We stopped about 10 or 11 times before we ate dinner. We sat down and started to open our food. Then the crazy readneck came up and started to call us names. Well James really told him a thing or two he said "Go come visit us in Tuscaloosa some time ~~you Bastard~~!" After we got back from our $27\frac{1}{2}$ mile hike we come back and ate supper. The next morning we left for Home.

"50 years"

Camp '74

Summer Camp for Troop 10 was truly a great year. We were the best organized troop at camp and tied with troop 11 for Honor Troop & which surprised Many people.

Many members received the Paul Bunyan award, while many also received one of the new merit Badges called Wilderness Survival.

Our service project was to build a council. A great part of our achievement should be thanked for to the acting Senior Patrol Leader "Sammy Brooks" and to the person who made it happen — Allen Sisk a.s.m. He organized and planned and led us to #1 in 74.

1974

It all began one Sunday at Camp Horne when Troop 10 arrived, we were immediately given who else but Jimmy! But as always we survived it. Jeff Free came to camp but believe it or not he acted like an angel. In fact we had no real trouble out of anybody. Of course Bobby would back talk the staff, and McAbee wouldn't get up. But such as always!! Well Monday the Troop settled down to work and really shopped up, MUCH TO MY SURPRISE. Tuesday was a normal day at camp I killed 4 ~~magnets~~ and six with broken bones. Then on Wednesday in all happened Jimmy Russopped lead us on a overnight survival camp, just for the fun of it Allen Sisk came. IT was so nice RAW HAMBURGER, CHIGGERS, and THE MOST FUN OF ALL NO SLEEP (IN case you've noticed I just changed Pens) OUR Dear Leader Jimmy R. (who made Honoray Nigger) cheated. When asked Why Jimmy said "I don't know", And Even Red (Sisk) slipped way off back in the woods. Thursday morning came two weeks later as we all crawled out of our CHIGGER Filled Pinestraw at 4:45 a.m. Well we all have our good Nights. As Thursday passed by I left our camp while Jimmy Cormany played 'My Heart Bleeds For You' and Jeff Free cried because I had just kicked his tail. Well as Time passed I learned That we tried For Honor Troop. So I'll leave you saying the crit goes to Allen Sisk and THE Boys (including Free)

APPALACHIAN TRAIL.

We started Aug. 20 1974 We drove for 5 miles and we got to Desoto falls and checked in. We found a creek and some people went swimming. On Monday we started the AT for fifty miles the question was asked how many will make it? It was raining when we started (close it always). We headed straight for Blood Mt while James repeatedly called out bring on blood Mt. it came and James went. After six miles we reached Nels gap knowing it was to late for any more hiking we rode on to the next starting place. Tuesday we hiked from Tesnatee gap to Unicoy gap rough terrain but no accidents. Wednesday we hiked from Unicoy gaps Dicks creek to day we hiked 20 miles. James and Mr Brooks already defeated by Blood Mt. were quickly destroyed by Tray Mt and Ass nob and had to drop after just there miles. Harold carried more than most of us did in our packs only he didn't have a pack. and then came the rain after 15 miles. Thursday we hiked from Dicks Creaks to Blue ridge gap. We had a lissard Man with us today (8 miles) we got through at noon. Then we went to Brass town Bald the highest Mt. in Georgia the bus service offered to take us to the top for the small charge of a dollar we told them to kiss it and hiked 1/2 a mile to the top. There we met the most dence pack range in the U.S. Friday we went to pan for gold found none (Rip off). Saturday as we left Mississippi Andrews was caught skin dipping Again

EAGLE
AWARDS
PRESENTED
TO:

JIM ANDREWS
JOHNNY YORK

9-26-74

THE "BLOOD MOUNTAIN" CLIMBERS TROPHY

OR

"THE BEAR WENT OVER THE MOUNTAIN AWARD"

This special award goes to the most outstanding mountain climber in Troop 10 who has shown tremendous courage, stamina and just plain old "guts" in climbing ole Blood Mountain on the recent 50 mile hike on the Appalachian Trail.

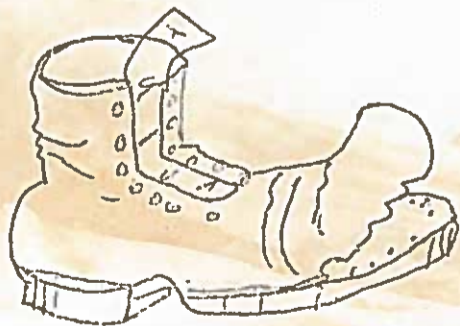

Tonight we are extremely proud to present this beautiful trophy to a person who completed this most difficult climb.

He has shown exceptional ability by taking 5 hours and 30 min. to climb 20 ft.

He also was lost 90% of the time and required to be pulled up the last 10 ft. of the climb or was it "dragged up". His motto for the climb was "I think I can, I think I can, I think I can, "Plop", I can't, HELP JAMES!" You could hear him singing his favorite song as he trudged along the trail, "The bear went over the mountain and what do you think he saw? Oh my gosh! Another mountain!"!!

He murdered 1000 of Georgia's biggest and fastest misquitos. Raided three Georgia hen houses. Trampled 20 of North Carolina's best pine trees. Ran out of toilet paper and by mistake grabbed a handful of poison oak leaves. Insulted one of Georgia's favorite black bears by trying to kiss him good night. Gagged three of North Carolina's most viscious rattle snakes to death when he took off his boot to scratch his big toe. Insulted a Georgia Park Ranger when he told him, "you sure don't sweat much for a fat man," And then couldn't understand why Troop 10 was told to leave Georgia and never return.

Need I say any more about this noble man. We are extremely proud and honored to present this beautiful trophy to Mr. Thomas Brooks, our favorite advancement Chairman.

This camp out was a normal troop - I started
Lost and I injured in battle, also 2 almost drowned it started
normal we didn't get to Lake Chinnabee till 10:30 Friday
Night. Saturday about 9 we started the hike from
about the top of Cheha Mountain down the ridge line. It was a
great day - blue sky - and it didn't rain believe it or not.
We ate a nice lunch on the trail. It was so clear we
could even see Lineville. After the hike James drove us
cross-country on a dirt road and tried to tear the duck off
no-knocks just like Ozark. That night we had a small
campfire and had the order of Stam Bull and Lebron
made the show so Fanny it was pitiful. Then we sent
15 of the little kids out and told them if we caught them
we would throw them in the lake. After two hours we
only caught 5. so getting tired of this game we called
them back in and started playing smear. It was really fun
'cause James and ADD played. James was just Fellingon
 us. Then the worst happen. Allen was putting some Japones
words on Jimmy so Jimmy got the fat to AD. and it
broke Allens leg so that ended our game. At bed time we
noticed Longford and Horrell were missing and had been missing
since the lake game. So out into the woods we went with
lanterns to find them. after about 15 mins we found both
of them asleep on the other side of the mountain behind
camp. Sunday we got up - ate - Then Jim and I tried to
drown each other. We packed up and went to the store
on top of Cheha Mt. Then it was home taking the crippled
AD with us

(Sounds like one of Plashe's names, doesn't it)

It started as most camp outs do, so we new it was going to be fun. We rode through little Hick red-neck town for the better part of Friday. We got to camp about 10:00 pm. that night, and began to set up our tent in an open field that was more like sleeping on a bed of nails. Saturday morning we got up and found an out-house to the joy of us all. After breakfast we went on a hike on Reptile got us lost back off in the woods (or should I say bushes) well we got back on the road when Reptile found a small green Reptile. Boy what fun both Horton and Alfonzo were scared to death of it, ofcourse the snake died when it saw Horton. Max set up our camp fire that night which was great. We had four of the most beautiful dancing girls you've ever seen and cans of blue ribbon beer everywhere James really enjoyed this. Max told us a ghost story about the 'Hic' in the pulpit. After the camp fire we ~~played~~ 'voach' ~~in~~ in a weedy field but after we finished it looked like it had just been bushed-hogged. We got home at the ~~same~~ same time as always Midnight

Panama City Trip
at St. Andrews State Park

August 12-19

Saturday - 24 boys + 6 parents ~~went~~ showed up at 7:30 to leave for Panama City. We had gotten past Montgomery when the fan belt on the bus broke + the old alternator went crazy about 11:00. So we had to stop by a cow pasture beside the road. Several ~~hours~~ ^{years} later they come back with a new part... that didn't fit! Later they got it fixed about 7:30 P.M. We went back to a gas station that had a broken cigarette machine, (yep for many!) where we improved the ju. They when we got to Troy, we ate supper at midnight. Sunday - At 3.A.M. we finally got to St. Andrews State Park + we slept (at least some did!) until 8. Then we ate breakfast + went swimming. ate lunch and some went crabbing + fishing in the afternoon. Then we ate supper + went to bed at 11:00. Monday - Got up at 8 + ate breakfast. Went swimming in Gulf of Mexico (last time we went in the bay). Then ate lunch + swam again. We went to Pettway Junction amusement park + stayed til 12.

(After the Bath)

Tuesday - We had breakfast + went swimming, ate lunch. Looped off in afternoon + ate supper. Had a night swim.

Wednesday - Wash day. Ate breakfast + went swimming. Had snack + went to Miracle Strip Amusement Park where Bill McCain kissed Wayne Reed on the lips!!!! Stayed until midnight. Girls too! Ah!!

~~Thursday~~ Thursday - Went to Omelet House for Brunch. Went swimming + etc. Ate supper + had night swim.

Friday - Went to Omelet House for Brunch. Others later went swimming + sightseeing. Ate at Tony's Pizza + Played Putt-Putt Golf.

Saturday - Went home + got home at 8:00 P.M.
